

ULCR123RK

CR123 Lithium Rechargeable Battery Charger Kit

Operating Instructions

1. Connect the adapter to the charger and plug the adapter into any AC outlet.
2. Insert the **UltraLast CR123R*** batteries into the charger observing the polarity symbols of the batteries and charger bays. The LED indicator light will illuminate RED, indicating the battery is charging. If the batteries are inserted in the wrong orientation, the LED light will illuminate GREEN.
3. In 1-3 hours, depending on the usage of the battery, the LED indicator light will turn from RED to GREEN, indicating the batteries are fully charged and ready for use.
4. Unplug the UltraLast CR123RK Charger from the power outlet when not in use.

NOTE:

- Please observe that the correct contact points are connected for polarity according to the signs (+ / -) on the battery and battery compartment of the UltraLast CR123 Charger.
- *ONLY USE ULTRALAST CR123R RECHARGEABLE LI-ION BATTERIES IN THIS CHARGER. THIS CHARGER IS NOT INTENDED TO CHARGE OTHER BRANDS OR TYPES OF CR123R OR CR123 BATTERIES.

Specifications:

Input Voltage:	12V DC
Output:	4.3V DC, 370 mAh

Warning: Charge ONLY UltraLast Brand CR123R Lithium-Ion (Li-Ion) Rechargeable CR123 Batteries.

CAUTION:

1. Read instructions before charging.
2. This charger is intended for use with UltraLast Brand CR123R Lithium-Ion (Li-Ion) rechargeable batteries only. Attempting to charge other battery chemistries may damage the charger and cause the batteries to explode, resulting in personal injury.
3. Do not leave the charger plugged in after charging is complete. Overcharging may result, damaging the charger and causing the batteries to explode, resulting in personal injury.
4. Do not expose the charger to moisture; charger may short circuit resulting in personal injury. For indoor use only.
5. Charger and batteries are not intended for use by children. Item may be harmful if used or handled improperly.
6. If your charger is no longer functioning and a replacement is not obtained, please make sure the batteries are disposed of properly.
7. Do not use the charger if it has been subjected to shock, surge, or damage. Take the charger to a qualified serviceman for repair.
8. Never use an extension cord or attachment not recommended by the manufacturer; this may result in the risk of fire, electric shock, or personal injury due to an electrical malfunction or improper electrical input.
9. Do not disassemble the charger. Any disassembly or reassembly may result in a risk of shock, fire, or malfunction, resulting in personal injury.
10. Unplug the charger before attempting to clean or maintain the charger.
